# Valentinus Valentinus

Information Systems Student at BINUS University  
Tangerang, Banten, Indonesia

## Summary

An art student eager to explore and excel in the fields of design and technology. My goal is to keep learning, refining my skills, and ultimately use my knowledge to create impactful and innovative solutions. I am committed to both personal growth and contributing to the creative community in a meaningful way.

## Experience

Apple Developer Academy | Indonesia

UI/UX Designer

March 2025 - Present (7 months)

Banten, Indonesia

- Selected as one of the cohorts out of over 10.000+ Applicants across Indonesia.
- Studied topics related to iOS development skills (Swift), product management, and UI/UX design.

BINUS Finance Club (BNFC)

1 year 2 months

Member

September 2023 - September 2024 (1 year 1 month)

Kota Tangerang, Banten, Indonesia

Event Promoter

Banten, Indonesia

During the holiday break, took the initiative to support friends by actively promoting the UKM BNFC at the Expo B2027 event. Grateful for the opportunity to contribute to the success of Expo B2027.

BINUS University

UI Designer and Front-End Developer (Mobile App and Website)

March 2024 - August 2024 (6 months)

Kota Tangerang, Banten, Indonesia

This project focuses on developing a Smart City management system for Labuan Bajo, Nusa Tenggara Timur, emphasizing both web and mobile platforms. The system aims to integrate various public services under a single, efficient digital platform to improve accessibility and convenience for residents and tourists. The Smart City application and website enhance the digital transformation of public services, promoting a higher quality of life through mobile and web management.

As the UI/UX Designer and Front-end Developer for both the website and mobile applications, I was responsible for designing and developing the front-end interface using modern frameworks like Tailwind CSS and TypeScript with React (TSX). My tasks involved creating an intuitive and responsive user interface that worked seamlessly across both mobile devices and desktops. One of the major challenges I faced was managing my time effectively. Balancing my academic responsibilities while learning new technologies and contributing to the project required strict time management. To overcome this, I created a structured schedule that allowed me to focus on both my studies and the project. Through continuous learning, including self-paced online courses, I was able to master new tools and frameworks, which significantly improved my performance in the project.

## KLIFONARA

1 year 7 months

Activist

March 2023 - March 2024 (1 year 1 month)

Banten, Indonesia

Staff Fixtures and Wiring

August 2023 - November 2023 (4 months)
