Information System Laboratory Assistant

February 2018 - February 2019 (1 year 1 month)

Information Systems Laboratory is a course-supporting unit assigned to conduct laboratory services for BINUS UNIVERSITY students especially those majoring in Information Systems. In laboratory activities, students are asked to solve problems based on case studies by applying the proper theories. This involves examining and analyzing the problems before designing the solution.

I work as Laboratory Assistant that help student to understand on practical. I teach:

- Information System Analysis and Design
- User Experience (UX)
