Jeanette Aurelia Siswanto

Undergraduate Information Systems Student | BINUS University
Indonesia

Summary

I am a passionate Information Systems student at BINUS University, eager to adapt quickly to new challenges. With strong communication skills, I excel both individually and in team environments. My leadership and collaboration abilities have been refined through various organizational roles, where I’ve gained a deep understanding of teamwork and problem-solving.

In addition to my soft skills, I have hands-on experience with technical tools and languages such as Figma, SQL, and Java, which allows me to bridge the gap between technology and business needs. I thrive in fast-paced, dynamic environments and am always looking for opportunities to grow and contribute meaningfully. I am confident that my communication, adaptability, and proactive learning approach will enable me to make a positive impact in any project or role I take on.
