Justine Winata

Software Engineer | Technology Enthusiast | Open to Opportunities
Jakarta, Indonesia

Summary

Hello! I'm a dedicated Software Engineer with a proven track record of designing and developing high-performing, scalable web applications. I am a professional who believes in a growth mindset, continually accumulating knowledge through diverse experiences. My expertise lies in building intuitive user interfaces and robust backend systems that enhance user engagement and solve client problems.

I'm interested in Artificial Intelligence and Cloud technologies and currently hold certifications as an ACP, and an ACA. I am always looking to connect with like-minded professionals and explore new technologies and challenges. Let's connect!

Experience

cynapse.ai
Software Engineer
March 2025 - Present (7 months)
Singapore, Singapore

- Join main development team at cynapse.ai building and maintaining the company's main system.
- Developed a production-grade multi-processing stream pipeline to optimize data throughput and performance.
- Implemented end-to-end system monitoring using Grafana and Prometheus for real-time visibility and reliability.
- Enabled automated integration pipelines with Jenkins, streamlining deployment workflows.

The Questlabs ID
