Verisya Autavia

Siswa di BINUS University
Jakarta Selatan, Jakarta Raya, Indonesia

Ringkasan

I am an Information Systems student at Bina Nusantara University
with an interest in UI/UX design and business analysis. In my role
as a Business Analyst, I have the ability to analyze business needs,
design technological solutions, and ensure effective implementation
across various projects. I focus on gaining a deep understanding of
business processes and user needs, striving to connect business
vision with efficient technological solutions. I enjoy UI/UX because
it allows me to express my creative ideas while placing myself
in a different perspective to truly understand what users need.
My adaptability, strong social skills, fast learning ability, and high
creativity are valuable assets that I bring to the table. Additionally,
I have a strong enthusiasm for learning new things to broaden
my knowledge and perspectives, which keeps my skills fresh and
innovative. With dedication and drive, I am ready to make significant
contributions to every project I undertake, both in professional roles
and personal development.

Pengalaman

Frisidea Tech
IT Business Analyst Intern
Februari 2025 - Agustus 2025 (7 bulan)
Area DKI Jakarta

Key Responsibilities & Contributions:

• Designed and executed test cases and scenarios, and performed testing
